

Local Update

We just finished up our quarterly meetings held on Sept.11 in ORD, and Sept.18 in CMH. We covered all the local news and updates from the local. We also got a little update on our member Bruce Regoli, Bruce was in a serious car accident and we are happy to hear he is on the road to recovery. We also welcomed Moctar Akala Assani to the position of Steward in CMH. We did provide answers to the questions from the last quarterly meetings, and new questions have been asked. We would like to assure the members we will continue to work hard for the local and never stop fighting. We have been working on new apparel for the members, this year we will be getting T-shirts with the local number on the chest over the pocket and the TWU winged logo on the back. We are also starting to gather ideas for our Holiday parties to be coming up soon, so if you have any ideas let us know.

Finally, negotiations will be starting next year and we need to start preparing now. We are starting a list of things we would like to change, improve or remove in the new contract and, we would like your input. It is important to us we get the concerns of our local on one list that can be presented to the other locals.

Thank you,

Local 572 Board
